Minutemen Chief

KANSAS CITY—A Federal grand jury has returned a new indictment against Robert Bolivar DePugh, 45-year-old leader of the right-wing Minutemen organization.

DePugh has been a fugitive since his indictment in Seattle Feb. 20 charging him and seven other men with conspiracy to rob four banks in that area.

The new indictment accuses DePugh of conspiring with another man named in the Seattle indictment to possess illegally manufactured weapons and unlawful possession of a .50 caliber submachine gun.
